BRAIN RESEARCH

VOL. 496 NO. 1/2 **CONTENTS** **4 SEPTEMBER 1989**

Research Reports

The colocalization of substance P and prodynorphin immunoreactivity in neurons of the medial preoptic area, bed nucleus of the stria terminalis and medial nucleus of the amygdala of the Syrian hamster
C.R. Neal Jr., J.M. Swann and S.W. Newman (U.S.A.) 1

Paraventricular nucleus injections of noradrenaline: cardiovascular effects in conscious Long–Evans and Brattleboro rats
D. Harland, S.M. Gardiner and T. Bennett (U.K.) 14

Biochemical evidence for enhanced sensitivity to *N*-methyl-D-aspartate in the hippocampal formation of kindled rats
R.A. Morrisett, C. Chow, J.V. Nadler and J.O. McNamara (U.S.A.) 25

[^{3}H]Imipramine binding in discrete brain areas is affected by castration in male rats
M. Sandrini, A.V. Vergoni and A. Bertolini (Italy) 29

Widespread expression of corticotropin-releasing factor messenger RNA and immunoreactivity in the rat olfactory bulb
T. Imaki, J.L. Nahon, P.E. Sawchenko and W. Vale (U.S.A.) 35

Distribution of neurohypophysial peptides in the guinea pig brain. I. An immunocytochemical study of the vasopressin-related glycopeptide
M. Dubois-Dauphin, E. Tribollet and J.J. Dreifuss (Switzerland) 45

Distribution of neurohypophysial peptides in the guinea pig brain. II. An immunocytochemical study of oxytocin
M. Dubois-Dauphin, E. Tribollet and J.J. Dreifuss (Switzerland) 66

Phase shifting the circadian clock with cycloheximide: response of hamsters with an intact or a split rhythm of locomotor activity
F. Wollnik, F.W. Turek, P. Majewski and J.S. Takahashi (U.S.A.) 82

A telencephalospinal projection in the Tegu lizard (*Tupinambis teguixin*)
K.A. Follett (U.S.A.) 89

Interactions of forebrain cholinergic and somatostatinergic systems in the rat
V. Haroutunian, P.D. Kanof and K.L. Davis (U.S.A.) 98

Triads: a synaptic network component in the cerebral cortex
A. Keller and E.L. White (Israel) 105

Differential modulation of Ca^{2+}-activated K^+ channels in ovine pituitary gonadotrophs by GnRH, Ca^{2+} and cyclic AMP
S.K. Sikdar, R.P. McIntosh and W.T. Mason (U.K.) 113

Primate spinothalamic cell responses to ureteral occlusion
W.S. Ammons (U.S.A.) 124

Dose- and time-dependent selective and non-selective effects of ricin (RCA 120) on rat primary sensory neurons
C. Rivero-Melian and J. Arvidsson (Sweden) 131

Nerve regeneration and serum levels of insulin-like growth factor-I in rats with streptozotocin-induced insulin deficiency
P.A.R. Ekström, M. Kanje and A. Skottner (Sweden) 141

Effects of chemical and electrical stimulation of the midbrain on feline T_2–T_6 spinoreticular and spinal cell activity evoked by cardiopulmonary afferent input
M.J. Chandler, D.W. Garrison, T.J. Brennan and R.D. Foreman (U.S.A.) 148

Effects of microencapsulated monosialoganglioside GM1 on cholinergic neurons
D. Maysinger, L. Garofalo, I. Jalsenjak and A.C. Cuello (Canada, Yugoslavia) 165

Cerebral glucose utilization in rat brain during phenobarbital withdrawal
C.A. Marietta, H.N. Wixon, F.F. Weight and M.J. Eckardt (U.S.A.) 173

Localization of calcitonin gene-related peptide and its receptors in a striated muscle
P. Popper and P.E. Micevych (U.S.A.) 180

Changes of the membrane potential in striatal synaptoneurosome, synaptosome and membrane sac preparations induced by glutamate, kainate and aspartate as measured with a cyanine dye DiS-C_2-(5)
E. Heinonen, K.E.O. Åkerman and P. Panula (Finland) 187

(contents continued on pp. 411/412)

Cited in Biological Abstracts (BIOSIS) — Chem. Abstracts — Index Medicus — Current Contents (Life Sci.) — Excerpta Medica (EMBASE) — Psychological Abstracts (PsycINFO) — PASCAL M

(contents continued from backcover)

Modulation of the voltage-dependent sodium channel by agents affecting G-proteins: a study in *Xenopus* oocytes injected with brain RNA
M. Cohen-Armon, M. Sokolovsky and N. Dascal (Israel) 197
Monoaminergic activity at the level of the hypothalamus and striatum: relationship to anticipated feeding and pancreatic insulin responses
L.J. Holmes, G.A. Smythe and L.H. Storlien (Australia) 204
Differential influence of posture and intentional movement on human somatosensory evoked potentials by different stimuli
B. Dimitrov, M. Hallett and J.N. Sanes (U.S.A.) 211
Norepinephrine in the paraventricular nucleus stimulates corticosterone release
S.F. Leibowitz, S. Diaz and D. Tempel (U.S.A.) 219
Painful dysaesthesias following peripheral nerve injury: a clinical and electrophysiological study
G. Ochs, M. Schenk and A. Struppler (F.R.G.) 228
A model of the pathophysiology of cerebral arteriovenous malformations by a carotid–jugular fistula in the rat
M.K. Morgan, R.E. Anderson and T.M. Sundt Jr. (U.S.A.) 241
The amine-depleting effects of 5,7-dihydroxytryptamine (5,7-DHT) in C57BL/6 mice do not increase with age
K.T. Finnegan, L.E. DeLanney, I. Irwin, G.A. Ricaurte and J.W. Langston (U.S.A.) 251
Quantitative histofluorescence of hippocampal mossy fiber zinc
D.D. Savage, C.Y. Montano and E.J. Kasarskis (U.S.A.) 257
Effects of NMDA antagonists, MK-801 and CPP, upon local cerebral glucose use
A. Kurumaji, D.G. Nehls, C.K. Park and J. McCulloch (U.K.) 268
Binding sites for [^{3}H]AF-DX 116 and effect of AF-DX 116 on endogenous acetylcholine release from rat brain slices
P.A. Lapchak, D.M. Araujo, R. Quirion and B. Collier (Canada) 285
Localization of reward-relevant neurons in the pontine tegmentum: a moveable electrode mapping study
P.-P. Rompré and S. Boye (Canada) 295

Short Communications

Electrical 'tuning' in muscle spindle receptors
M.N. Kruse and R.E. Poppele (U.S.A.) 303
Attention and eye movement related activation of neurons in the dorsal prelunate gyrus (area DP)
C.-y. Li, M. Tanaka and O.D. Creutzfeldt (F.R.G.) 307
Sodium dodecylsulphate induces a breach in the blood–brain barrier and enables a West Nile virus variant to penetrate into mouse brain
D. Kobiler, S. Lustig, Y. Gozes, D. Ben-Nathan and Y. Akov (Israel) 314
Suppressive effects of halothane on reactive synaptogenesis in the dentate gyrus of rats
E. Uemura, E.D. Levin, R. DeLuna and R.E. Bowman (U.S.A.) 317
Transplantation of septal cholinergic neurons to the hippocampus improves memory impairments of spatial learning in rats treated with AF64A
S. Ikegami, I. Nihonmatsu, H. Hatanaka, N. Takei and H. Kawamura (Japan) 321
Coupling of D_1 dopamine receptors to the guanine nucleotide binding protein Gs is deficient in Huntington's disease
J. De Keyser, J.-P. De Backer, G. Ebinger and G. Vauquelin (Belgium) 327
Xenobiotic metabolism in human brain — presence of cytochrome *P*-450 and associated mono-oxygenases
V. Ravindranath, H.K. Anandatheerthavarada and S.K. Shankar (India) 331
Mosaic reconstruction of blood vessels in mouse neocortical tissue transplanted into the third ventricle of rat brain
Y. Nakano, K. Takei, S. Toya, Y. Tsukada, S. Ghandour and S. Kohsaka (Japan, U.S.A.) 336
Phaclofen antagonizes the depressant effect of baclofen on spinal reflex transmission in rats
U. Wüllner, T. Klockgether and K.-H. Sontag (F.R.G.) 341
Evaluation for roles of periventricular cholinoceptors in vasopressin secretion in response to angiotensin II and an osmotic stimulus
K. Yamaguchi and H. Hama (Japan) 345
Inhibition of histamine release from rat hypothalamic slices by ω-conotoxin GVIA, but not by nilvadipine, a dihydropyridine derivative
M. Takemura, J. Kishino, A. Yamatodani and H. Wada (Japan) 351
Characteristics of the bursting pattern of action potentials that occurs in the thalamus of patients with central pain
F.A. Lenz, H.C. Kwan, J.O. Dostrovsky and R.R. Tasker (U.S.A., Canada) 357

(continued overleaf)

(contents continued from backcover)

Laminar analysis of motion information processing in macaque V5
L. Lagae, B. Gulyas, S. Raiguel and G.A. Orban (Belgium) 361
Evidence for functional regeneration in the adult lamprey spinal cord following transection
A.H. Cohen, M.T. Baker and T.A. Dobrov (U.S.A.) 368
Dopaminergic neurons in the nucleus raphe dorsalis innervate the prefrontal cortex in the rat: a combined retrograde tracing and immunohistochemical study using anti-dopamine serum
M. Yoshida, M. Shirouzu, M. Tanaka, K. Semba and H.C. Fibiger (Canada, Japan) 373
Blockade of dopamine D_1 receptors by SCH 23390 antagonizes discriminative stimulus effects of pentazocine
M. Ukai, S. Nakayama, T. Hamada and T. Kameyama (Japan) 377
The interaction of central oxytocin and cholecystokinin regulates grooming behavior in the rat
M.T. Kaltwasser and U. Andres (F.R.G.) 380
Long-term treatment with antipsychotics does not alter the phosphoinositide response to muscarinic or D_2 dopaminergic agonists in rat striatum
J.E. Rubinstein, R.J. Hitzemann, C.R. Ashby Jr. and R.Y. Wang (U.S.A.) 385
Somatostatin-like immunoreactivity in rat main olfactory bulb: extent of coexistence with neuropeptide Y-, tyrosine hydroxylase- and vitamin D-dependent calcium binding protein-like immunoreactivities
K. Seroogy, T. Hökfelt, A. Buchan, J.C. Brown, L. Terenius, A.W. Norman and M. Goldstein (U.S.A., Sweden, Canada) 389
Prostaglandin E_1 modifies porcine cerebral arterial tone through cyclooxygenase related eicosanoid(s) release
S. Fukuda, K. Taga, A. Tsukui, N. Nishimura, Y. Kumagai and K. Shimoji (Japan) 397
Evidence for an excitatory amino acid pathway in the brainstem and for its involvement in cardiovascular control
P. Somogyi, J.B. Minson, D. Morilak, I. Llewellyn-Smith, J.R.A. McIlhinney and J. Chambers (U.K., Australia) 401
